Photo coverage tracker

Class or grade: _____ Teacher: _____ School year: _____

1. Print your class list, or keep it on a clipboard.
2. Tick a box when you have a usable photo of that child where their face can be seen.
3. Look at the unticked names every few weeks, not at the end of the year.
4. Catch those children doing something they enjoy. A child building, reading or painting makes a better photo than one taken because they were on a list.
5. Tell your coordinator which children you still have not caught, before the photo seal date.

Child	Fall	Winter	Spring	Still need / notes
